NEW WEBINAR!

Introduction to Data Sets (101 Series):

Roles of SSA's Office of Research, Evaluation & Statistics

**May 11, 2016
3:00 PM - 4:00 PM EDT**

REGISTER NOW

The Social Security Administration's Office of Research, Evaluation and Statistics (SSA, ORES) is a multifaceted organization that develops a variety of data, research, and tools related to this long-standing American institution. In this webinar, staff will provide a visual walkthrough of the ORES website and explain the following research and statistical lines of business:

1. Angela Harper will provide an overview of the ORES published statistics program;
2. Paul Davies will provide an overview of the ORES research program; and
3. Marc Sinofsky will provide an overview of the ORES research and statistical data linkage program.
